

"Ari,

I have used the CBD Clinic ointment exclusively for the last week and the feedback has been Awesome! The product is exceptional both used alone and in conjunction with laser therapy. My high profile athletes are very pleased with positive effects of CBD Clinic ointment. Thanks for making my job easier and more efficient."

- Dr. Vetanze BS,DC,CCEP,GPA certified
Former Team Chiropractor, Denver Broncos

"I love the new CBD clinic ointment with Charlotte's Web inside. I use it on my shoulder, lower back and any other sore area on my body. I love using it before I play handball as it seems to numb my achy muscles, sore joints. I also love how it smells and how quickly it alleviates soreness."

Jake Plummer,
Quarterback, Denver Broncos

"The CBD Clinic product is awesome! Both my wife and I use it and have noticed more of an effect than any anything in the past! Simply the best product that I have ever used!"

Duane Ludwig
Professional UFC Fighter

I was in the military for 20 years and have had numerous issues with my back and neck from my time in the service. I constantly lived in a dull nagging pain for the past 30 years. I took the Charlotte's Web hemp extract 500 coupled with the Level 5 CBD CLINIC cream and I have full range of motion in my neck and most importantly – NO PAIN! Great product – highly recommend.

Jerry S.
Vietnam Veteran

"It's nothing like I've ever used before. My patients are begging for it".

Josh Beaudry, DC
Life Springs Chiropractic in Denver.

Dr. Bonnie G.

I am a patient of yours, and the last time I came in for an evaluation you gave me a sample of the level 3 CBD cream for my mending broken hand. I have been using this cream for about 3 weeks, twice a day. It's amazing! After the surgery they told me that it would take about 6-10 months for my hand to fully heal, and that it would be sore. They were not lying. I have a constant throbbing pain in my hand every day, all day; UNTIL I started using

this amazing cream that you gave me. I rub it in, and after about 10-15 minutes the pain goes away; I have more flexibility and no constant throb. I am a Chef and use my hand to cut, chop, and do numerous other things. I can only imagine what the level 5 cream would do for my hand. This is a product that needs to be on the market for everyone. I can't thank you, or the person who made this product enough! The only issue that I have is what happens when I run out? Will this be available soon? Can I get more?

Please forward this to the person that manufactures it, I need them to know that it is a phenomenal, worthwhile product. I understand that I am just one person, but how many people can benefit from this? Countless I imagine. Thank you so very much for giving me a sample. Like I said, my only issue is that I can't buy it on regular basis. I know so many people who would benefit from this product.

Thank you for your time, and everything that you do!

Regards,

Chef Jim T.

"It really works and my patients want it"

Clint Morrow, DC
Morrow Chiropractic

I use the CBD Clinic Pro Sport cream daily on all my joints before I work out or before I go to bed. I love the menthol heat of the product and it also seems to give me more range of motion and some pain relief when used. When you've abused yourself like I have, nothing gives you 100% relief but after 29 surgeries it has certainly helped me.

Mark Schlereth
Denver Broncos offensive lineman

"Living the day to day grind as a MMA Coach requires consistency in the training room as the main training partner for your athlete/athletes. When training the best in the world there is no time off. Fighters take time off in between fights, but as a coach there is no time off. With this comes no recovery time. This has been the most grueling part as a coach dealing with the joint issues with my wrist, elbows and shoulders, on top of the pain with daily body conditioning involved with sharpening your athletes skills demanded by a coach. The one product I have found that has assisted me to a 20 year, 16 World Championship career is the CBD Clinic Deep Muscle & Joint Pain Ointment."

-Trevor Wittman

Go-to solution for chronic pain and sports injuries

"My husband and I run a very busy chiropractic, physical therapy and family medicine practice near Houston, Texas. Our patients, especially those with chronic pain and sports injuries, are

experiencing great relief with the CBD CLINIC analgesic ointments and creams. Although the products are more expensive than other commonly-used pain relief products, our patients keep coming back for more because they love it. For lots of our patients, CBD CLINIC has become their go-to solution for rapid relief from pain.”

– Dr. Dawn Bush, DC, The Oaks Healthcare

My patients love CBD CLINIC

“I first used CBD CLINIC ointment on my shoulder and hip. It quickly reduced my pain. So I began introducing it to my patients as part of their therapy and giving them samples to try at home. The response has been great. My patients love it! It’s much better than Biofreeze. CBD CLINIC is helping patients with rheumatoid arthritis, back and shoulder pain, inflammation, and other indications. No complaints; only positive things to say. I have to keep ordering more.”

– Dr. David Jaffe, DC, Jaffe Chiropractic & Wellness Center

Every patient get treated with CBD CLINIC

*“I treat every one of my patients with CBD CLINIC ointment. That’s how impressed I am with its ability to quickly reduce pain and help serve my patients. Our senior citizen patients on fixed incomes—who have aches and pain everywhere--**can’t get over the relief they’re** experiencing. And our patients with rheumatoid arthritis are seeing great results. I also see a **lot of fibromyalgia patients, and they’re getting tremendous benefit from CBD CLINIC.** I know from my own use, as well as patient feedback, that pain relief from CBD CLINIC ointments last for hours-- far longer than other topicals like Biofreeze. And one jar typically lasts a month, even using it four times daily; so it’s a great value.”*

-- Dr. Theresa Crandall, DC, Coastal Spine and Rehab Center
