

TIDL HEAT THERAPY SPRAY

Relief does not always have to be ice cold, a soothing warm touch can work wonders on muscles and joints in pain. Add a numbing finish and you have the ultimate relief experience from the TIDL Heat Therapy Spray. The heat therapy is ideal for post-training and/or post-treatment to allow the body relax and find relief in sore areas especially. With a max dose of 4% Lidocaine, the nagging aches and pains are sure to be gone so you can achieve optimal relaxation. The soothing signature scent adds to the relief experience, so you can return to doing the things you love, confidently.

All TIDL sprays come enhanced with a patent pending actuator, constructed to deliver an optimal dose at the perfect pressure to cover a healthy surface area for all around therapy.

BEST USE:

-  Anytime throughout the day when relief is needed for aches, pains, strains, or soreness
-  Great for pre and post exercise to prepare the muscles and joints by relieving aches rapidly. A daily use product that just makes you feel better, every single day

HEALTHCARE PROVIDERS:

-  Excellent for post-treatment to relieve aches, pains, and numb pain directly
-  Daily maintenance of pain through the use of the spray for full body relief and recovery
