

TIDL

CRYOTHERAPY CREAM

All topical creams and gels are not the same. One treatment with TIDL Cryotherapy Cream and you will see and feel the difference instantly. The luxurious cream comes packed with pain relief and absorption enhancing ingredients that make it ideal for joint pain and stiffness. Massage, Graston, and regular application will change the way you feel as the cream comforts the area of application, while delivering powerful relief directly at the source.

All TIDL sprays come enhanced with a patent pending actuator, constructed to deliver an optimal dose at the perfect pressure to cover a healthy surface area for all around therapy.
